

A Observed motion and the fixed task interval

B Same recording, removal-only evidence

L0 Software status

Navigation reported success.

Withhold: sustained physical completion.

L1 Result-adjacent measurement

Position error 0.3982 m; speed 0.0438 m/s.

Withhold: satisfaction across the five-second dwell.

L2 Delivered interval trajectory

Within-dwell position violation: $0.4003 \text{ m} > 0.40 \text{ m}$.

Refute that interval requirement; withhold physical cause.
