

a Recorded ASV navigation in CRANE

Evidence to explanation

Shared visible evidence

Relevant source + diagnostic computations

B2 Tool-enabled agent

Inspect evidence and source

Compute diagnostics using tools

Generate natural-language answer

B4 Diagnostic contract

Derive maximal supported diagnosis

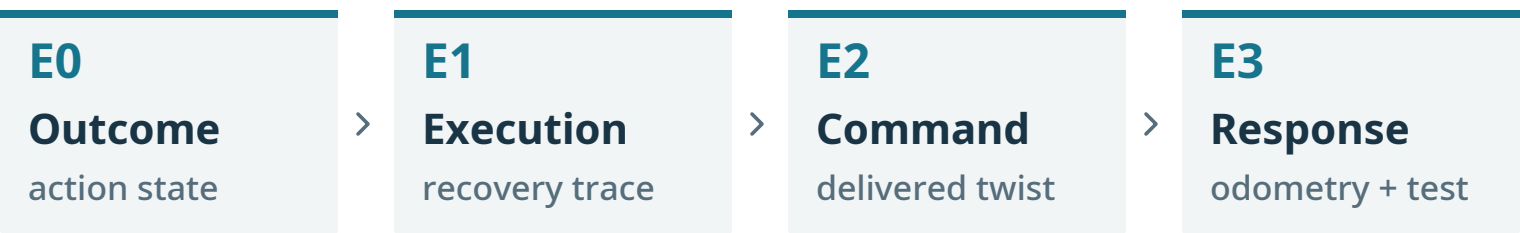

Realize permitted claims + numeric slots

Verify claims against the evidence plan

Physical truth remains evaluator-only.

ASV demonstration; land/Nav2 evaluation.

b Same episode, nested evidence

Evidence removal reverses this sequence.

More evidence supports deeper diagnosis, not a unique cause.

c Adverse-claim flags
